Our Story

In **1990**, we started with a small tailoring shop in Exhibition Road with 3 tailors only. Today our team consists of more than **70 multinational** professionals in different roles providing high-end fashionable uniforms to our customers from different sectors.

The principles of using the best fabrics and latest machinery and technologies have not changed over the past **30 years**, ensuring our garments are of the highest quality available.

All our textiles are sourced from large mills directly and manufactured as per our specifications. Our textiles are dyed with **green materials** that do not cause any form of irritation, rashes, or any harmful effect on the skin.

Other raw materials used in our garments are produced by the industry's best companies to ensure high-quality standards.

Our manufacturing facilities are based in Bahrain, employing highly **experienced tailors** and are monitored by expert production managers at every stage of the production. We only use the latest and **most equipped machinery** and sophisticated computerized embroidery machines to ensure the highest quality at all times.

For **3 decades** we have been proudly supplying high-end quality uniforms to schools, corporates, hospitals factories, and organizations in Bahrain and Saudi Arabia.

Look **Smart**

What Makes Us Different?

Since **1990**, we have been providing our customers with the best uniforms using various premier **fabrics, colors,** and **styles** to meet their requirement and desired designs while sustaining a **high value** product.

We only use the highest quality materials in our garments, to ensure long **durability, comfortability,** and a **Look Smart** finish.

"Georgia Uniforms has been supplying my company with high-quality affordable garments for years. The team has always gone out of their way to move mountains for our business."
